# Boost Business Value and Function

## Commercial & Industrial Applications

Our product is durable to sustain in high-traffic & heavy equipment areas while capturing any company's creative design.

## Increase Business Value

Buyers will instantly see quality and trust within your company standard through your decorative and durable business space.

## 5-Year Warranty

Patriot Coatings comes with a 5-year warranty against peeling, chipping, and fading, guaranteeing long-lasting peace of mind

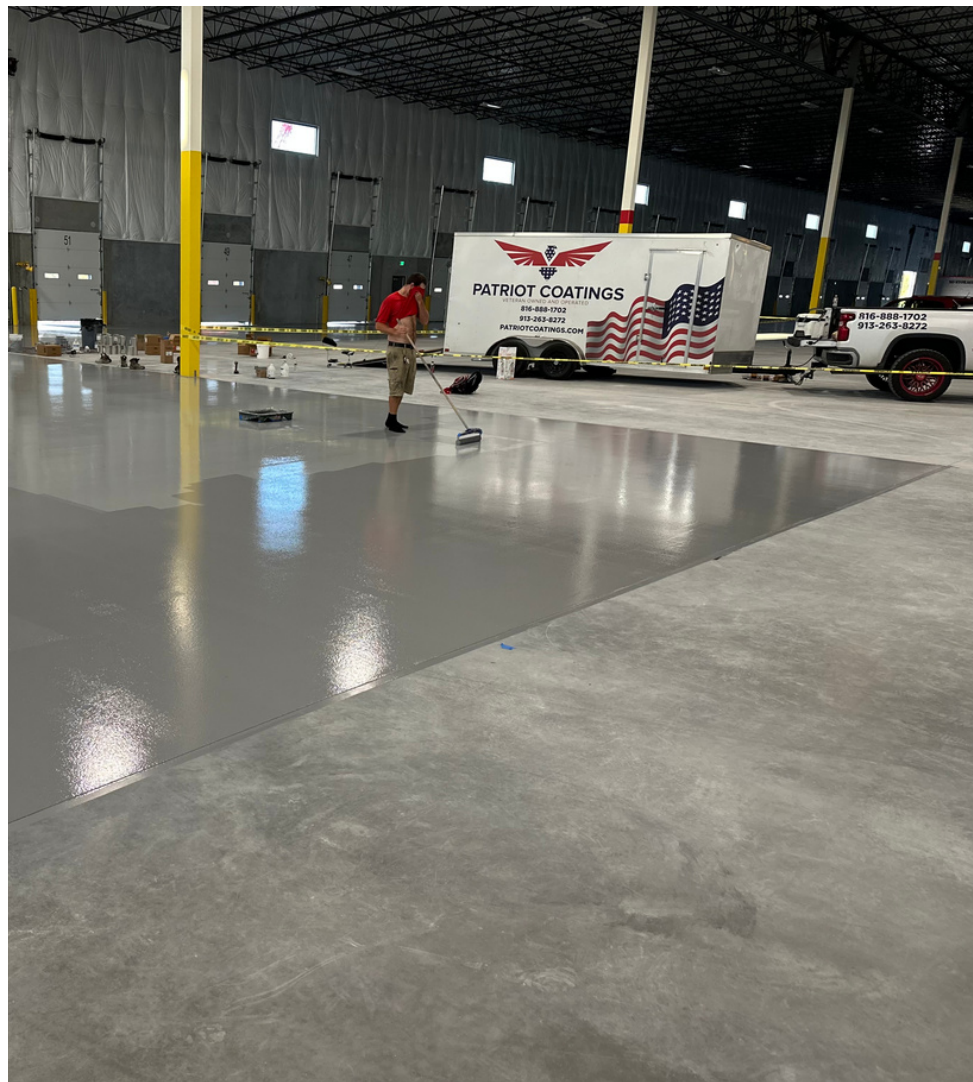

# Enhanced Commercial Concrete Coatings

As a top-quality provider of several different types of coatings, Patriot Coatings LLC takes pride in serving businesses and establishments of all kinds. There are instances where commercial-grade epoxy is a valuable choice, depending on the industry. Whether you want to correct chips, cracks, or deterioration, or your concrete needs to be remodeled, we'll provide you with a durable coat and a stunning finish. We aim to make your concrete match your business's aesthetic and provide a safe surface for your customers and employees.

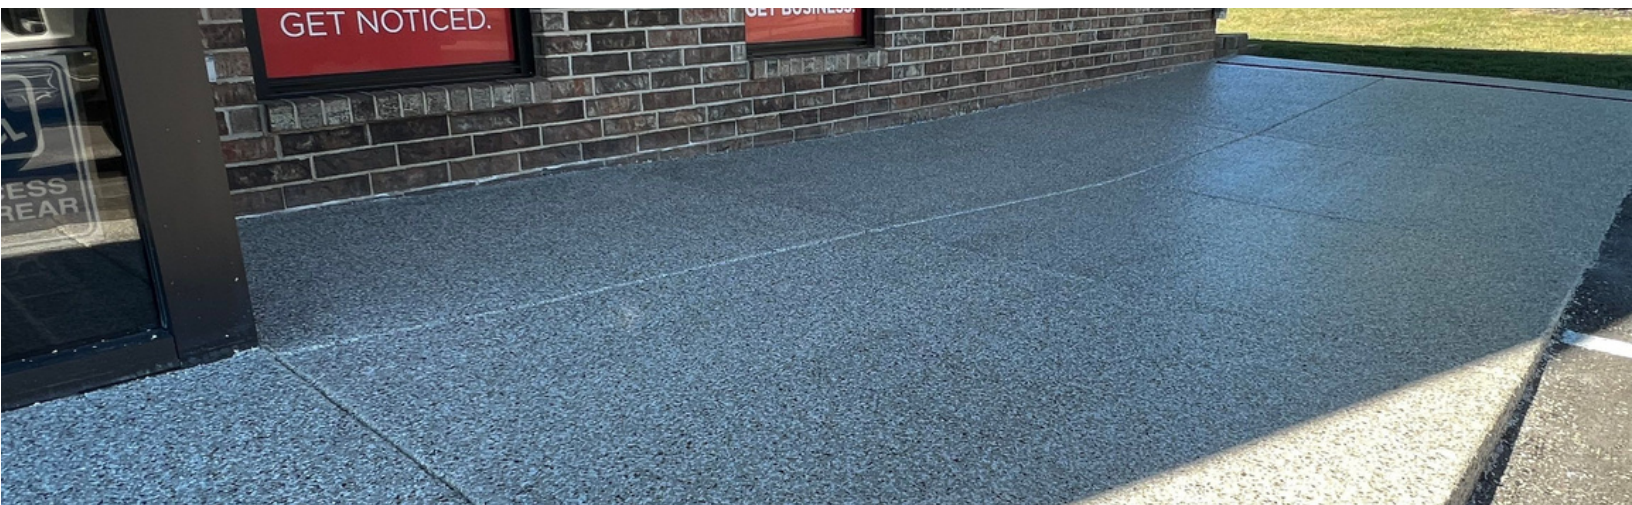

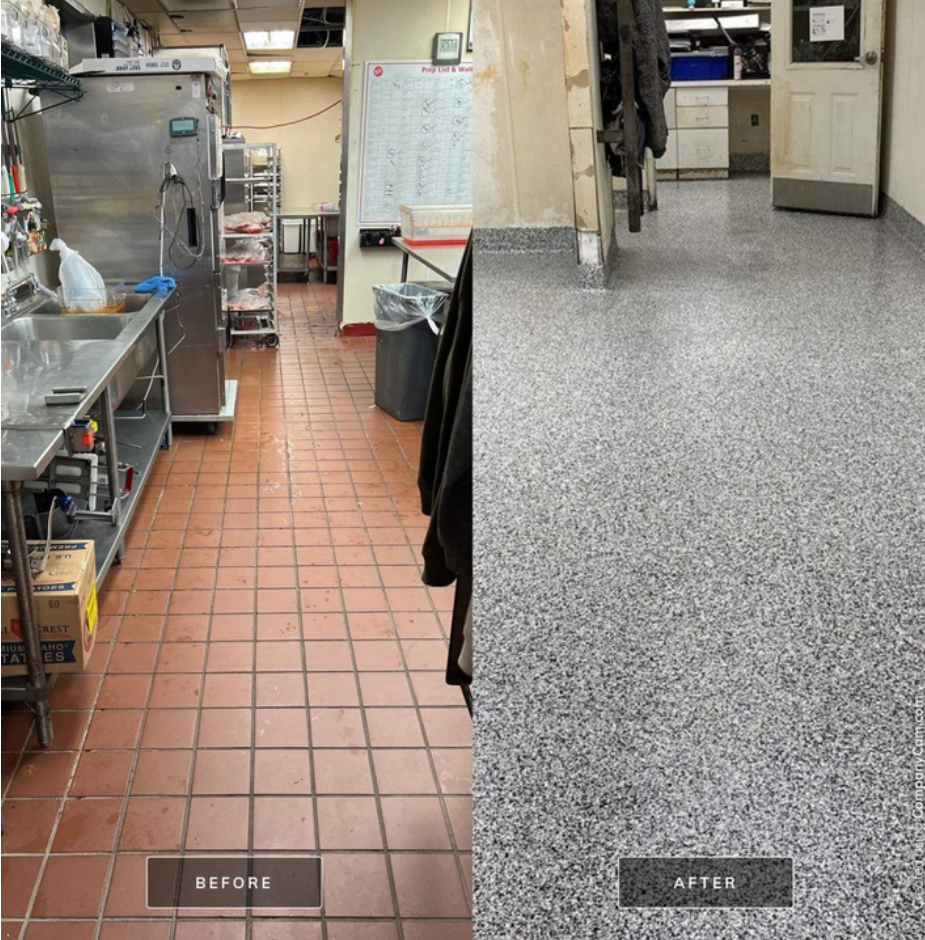

## COMMON USES:

- Stores
- Patios
- Commercial kitchens
- Gyms
- Weight rooms
- Bathrooms
- Rec areas
- Hallways
- Schools
- Airport hangers
- Storage areas
- Hospitals
- Entryways
- Outdoor sidewalks
- Stairways

# Installation

- ← Polyaspartic
- ← Vinyl Chip Layer
- ← Polyurea
- ← Concrete

1

## PREPARATION

We diamond grind the floors with up to 800 Lb machines to remove any sealer and open up the pores of the concrete. Then use industrial HEPA vacuums that collect up to 90% of the dust.

## CONCRETE RECONSTRUCTION

Houses can settle and create small cracks in the garage floor before the home is sold. Now, you don't have to worry about a buyer asking to fix the cracks again!

2

1

## BASE COAT

98% solids polyurea or 100% solids epoxy is mixed and applied to the prepped surface. It soaks deep down into the surface, forming a permanent bond with the substrate.

2

## BROADCASTING THE FLAKE

The flake is broadcast by hand to rejection, meaning the floor can't take anymore. This ensures an even coat of color and texture guaranteed to impress your buyers.

1

## SCRAPING THE CHIP

Once the base coat is fully cured, the floor is scraped and vacuumed to remove loose or verticle flakes. We then vacuum up any loose flakes before the final coat.

2

## CLEAR COAT APPLICATION

The final step is to squeegee and back roll the Polyaspartic or polyurethane clear coat.

# About Us

We are a Veteran-Owned and operated small business specializing in luxury concrete coating systems. Our team has over 50 years of combined customer service experience in the financial services and general contracting industries, allowing us to provide you with the custom product you need with the attention to detail you deserve.

---

## Giving Back to Those Who Serve Us!

We love America and the opportunities this great nation has provided for our families! After serving our country, we wanted to be able to provide the highest caliber product available, as well as help make our communities more beautiful. We want to give back, so a portion of every project will go to veteran-based service organizations. Our careers have been based on service, so contact Patriot Coatings and let us serve you!
